Senatorial indications—Misty, with a probability of a clearing off for ——.

Nine United States Senators were elected by Legislatures yesterday, and eight of them were Republicans.

Now that the Democrats have sunk their party, they want to sink the funding scheme before they quit Congress.

A man who wants to get an insight into this senatorial struggle should go to Madison. He would then know less than ever.

Hancock failed to send a congratulatory telegram to Greenback Plaisted when he was declared elected by the Legislature. A child that has once been burnt is afraid of fire.

There are twenty cities in the United States having a population of 100,000; over fifteen having between 50,000 and 100,000; and twenty-nine having between 30,000 and 50,000.

In the Sawyer caucus last night at Madison, not a member from Rock county was present. You see, they don't believe in bulldozing, and —— to be independent of that clique.

On the Assembly committees Rock county has four places. Mr. Lawrence is chairman of the committee on banks, banking and insurance, and is also on the committee on cities; Mr. Pratt is on the ways and means committee; and Mr. Menzies adds ability to the committee on assessment and the collection of taxes.

The impression is growing that the Legislature will be compelled to pass the resolution amending the constitution so as to prohibit the manufacture and sale of intoxicating liquors. There are hundreds of petitions going in from all parts of the State favoring the amendment, and strong efforts will be made to submit the question to the people.

The State Journal of last night takes an exceedingly hopeful view of the senatorial situation. In a doubled-leaded editorial on the subject it says: "The present indications are that the Sawyer boom (if ever it was a boom) has been more effectually stricken with collapse than any political movement which ever agitated the people assembled at the State capital. The whole fabric of false pretense, bogus claims and braggadocio has tumbled to pieces, and it is doubtful whether enough of the fragments can be gathered together to make a respectable showing at the balloting, to-morrow night. The members clanged for Sawyer are deserting him by groups and counties; not in detail—it's a landslide. It is conceded by all intelligent observers that Mr. Keyes will start off with the highest number of votes, and maintain it to the end, resulting in his nomination after a few ballots have been taken."

It is not altogether a profitable business to the country to elect money to the United States Senate instead of brains. For instance, Mr. Sharon, Senator from Nevada, has been called Senator for six years, that is, he was elected six years ago. His record has been examined, and this is the way he stands as to his presence and absence.

Total days of the Senate in session 694
Total days of Sharon present and voting 52
Total days in historical doubt 71
Total days of Sharon's known absence 500
Sharon's percentage of non-attendance 73
In doubt, but probably absent 40

For these 55 days of sitting in his seat and voting he has drawn \$300,000, beside mileage and his annual allowance for newspapers and stationery. If the amount were paid Sharon which was justly due him, he would get only \$1,000, instead of the \$300,000. That class of men—who are immensely rich—generally cheat the country when they go to the Senate or the House either. They attend to their own business first, and the business of the country receives but little part of their time.

Here is a case in point of which shows how utterly the Democrats in Congress disregard justice and morals. The Bisbee-Hull case, of Florida, in which Bisbee, Republican, contested the seat in Congress of Hull, Democrat. It was never maintained by anybody, really, that Hull was elected, and yet he was given a seat. The fact that he had no right to his seat was simple and indisputable. And in the face of this what was done? Hull was allowed to hold the seat, to vote regularly with the Democratic party, and to draw pay for so doing. Now when the term is almost expired, the Democratic committee, with no fresh evidence to force a conviction, decides that the seat belongs to Mr. Bisbee. Even yet Hull is not ousted. He is likely to draw pay till the very end of the term. Of course Bisbee is entitled to draw pay for the full term, and the result will be that the government will pay a double salary for two years, having nothing to show in return but the votes of an illegal Congressman which have been cast uniformly against the best interests of the country.

LES MISERABLES.

MONTOWOC, January 18.—Minnie Vier and Alice Mansfield, two of the four girls who escaped from the Industrial School for Girls in Milwaukee, a few days ago, were discovered in a den of infamy here to-day, and was promptly arrested by Marshal Morrison. The authorities in Milwaukee have been notified, and the girls will be taken back to their former quarters again to-morrow.

FROM MADISON.

Special to the Gazette.

MADISON, Jan. 19.—The senatorial question has been red-hot since last evening. The Keyes men concede that Mr. Sawyer will receive the nomination. If a dark horse should come up his defeat can only be secured by the aid of the Democrats. Lieutenant-Governor Birmingham is spoken of as a dark horse. The Democrats say they are willing to do anything to beat Sawyer. The probabilities now seem to be that all the Republicans will go in the caucus to-night. Mr. Sawyer will be nominated, and all will abide by the decision of the caucus.

To-day's session was short and unimportant. In the Senate, the redistricting resolution was called up and postponed until the 27th.

In the Assembly a joint resolution was passed providing for the appointment of a committee of 24 to consider the restricting matters.

Prof. E. S. Holden, of the naval observatory, at Washington, has accepted the management of the Washburn observatory in this city, a position made vacant by the death of Prof. Watson, and enters upon his duties within a few weeks.
